**Subject:** R4 permit documents for Kampachi

Damien:

Per our conversation yesterday, here's the link to the Region 4 documents for Kampachi. They just published the notice for the public hearing last week, so this includes that notice as well as the draft permit, fact sheet, EA, BE, ODC evaluation and the EFH assessment.

We're moving forward on establishing an MOU with NOAA for the modeling assistance. However, there's no need to wait for that to be executed to get their modeling folks involved in this project. I can set that up whenever you're ready.

The director of NOAA's aquaculture program (Dave O'Brien) is also going to nudge their regional aquaculture coordinators about giving EPA and the Corps a heads up on projects as soon as they find out about them, so that this doesn't happen again.
